ADITYA RAJ

Android App Developer | B.Tech in Computer Science

91+0000000000   adityaraj5138@gmail.com   https://aditya-wine-one.vercel.app

SKILLS

- Languages: Java, Kotlin, Python, C++
- Frameworks: Android SDK, Android Jetpack Libraries, Firebase SDK, Jetpack Compose
- Cloud/Databases/Tech-Stack:Firebase (Authentication, Realtime Database, Storage), MySQL, MongoDB, Git, GitHub, REST APIs, XML, JSON

WORK EXPERIENCE

Freelance Android App Developer   Jan 2024 – Present

- Built 2+ Android apps for clients using Kotlin/Java, Firebase, and modern UI/UX.
- Integrated features like authentication, Admob Ads ,payments, and notifications.
- Delivered fully functional apps tailored to client requirements.

Hackathon Participation   Dec 2023 – Present

- Participated in 10+ hackathons, developing Android-based prototypes under 24 To 48-hour constraints.
- Learned how to work in a team, quickly build ideas, and explain them clearly to others.
- Improved my problem-solving and got better at building real-world apps through hands-on practice.

PROJECT

EDUCATION

Galgotia University

Bachelor of Technology (B.Tech) in Computer Science   2023-2027
